

Dear customers,

10 January 2025

ULVAC Components News

Sales Termination

Please be informed that we will stop the sales of the following products.

Although we have continued to sell the sensor head for a discontinued vacuum gauge for many years, it has become difficult to obtain key parts due to significant increase of material costs and decrease in production volume. We appreciate your understanding and cooperation.

– Details –

[Object products]

Penning gauge sensor head WI-PA

Anode for WI-PA

Cathode for WI-PA

[Sales end date]

31 December 2025 (the schedule may be changed depending on the stock status)

[Successor models / Recommended replacement models]

Cold cathode gauge SC1 (measurement pressure range: 1×10^{-5} to 1×10^0 Pa)

Multi ionization gauge ST200 (measurement pressure range: 1×10^{-5} to $1 \times 10^{+1}$ Pa)

Sincerely
