

Dear customers,

June 2018

# ULVAC Components News

## Sales Termination

Firstly, we would like to take this opportunity to extend our best wishes to all our valued customers. We greatly appreciate your business and thank you for choosing ULVAC products.

We are informing you about the change of the supplier and the material of Pirani gauge sensor head WP-01/02/03/16. Since Pirani gauge sensor head is consumable, stable supply of Pirani gauge sensor head is necessary. We will change the supplier of Hermetic terminal to continue to procure components stably and produce Pirani gauge sensor heads systematically. Due to this change, the material of the ring (see figure below) will be changed, however the specification of Pirani gauge sensor head remains the same. We appreciate your understanding.

We would like to express our gratitude for your continuing support.

Sincerely yours,

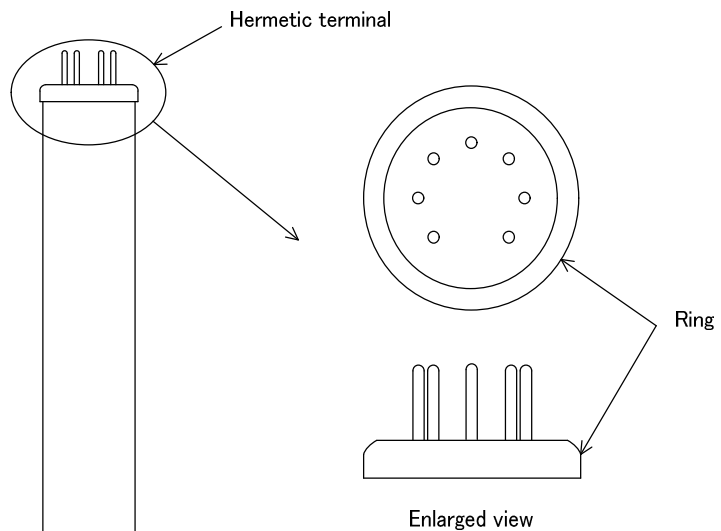

- Note -

【Product model】 Pirani gauge sensor head WP-01, WP-02, WP-03, WP-16

【Changes】Supplier and the ring of Hermetic terminal.

Before; FeNi alloy Ni plating finish

After; FeNiCo alloy Ni plating finish

【Reason】For the stable supply.

【Scheduled time of the change】

•WP-01 : From October 2018.

•WP-02/03/16 : From April 2019.

(However, the scheduled time may change depending on the stock status.)

Sincerely

TAKUYA KOBAYASHI
