- Details -

1. Discontinued products

RF Power Supply RFS-13100F, RFS-13150F, RFS-2750L, RFS-2775L
Matching Box MBX-13100F, MBX-13150F, MBX-2750L, MBX-2775L

2. Production termination date

09 August 2024

3. End of Sale Date

09 August 2024

4. Maintenance service response period

7 years after production termination.

5. Successor model

RF Power Supply : RFS-13200F (About RFS-13100F and RFS-13150F)

Matching Box : MBX-13200F (About MBX-13100F, MBX-13150F)

There is no successor to the RFS-2750L, RFS-2775L, MBX-2750L, MBX-2775L

5. Attached file

Production termination of RF_L_F Series PN-PG04-018-00E

Sincerely

Toshio Tanabe
Senior Manager
Sales Dept

End of Document

Dear Customers,

13 Sep. 2023

Components Business HQ
ULVAC,Inc

Production termination of RF_L_F Series

Please be informed that we stopped manufacturing following product.
Sales will end on the end of sales, so thank you for your understanding.

–Details–

1. Reasons for production termination

Although production and sales have continued for a long time, it has become difficult to maintain the production system for target models due to the deterioration in the availability of major parts, the increase in discontinued parts, and a decrease in the amount of orders.

2. Last Order Date

August 9, 2024

3. Discontinued products

Please refer to the list of discontinued models below. In addition to the standard products of the target model, production of minor changes and modified products of the relevant model will also be discontinued.

4. Maintenance

Maintenance Period: Until August 8, 2031

Regarding after-sales service for existing delivered products, in principle, we have a system that can be repaired for 7 years from the date of the final order, but if the consumption of maintenance parts is larger than expected, or we may not be able to respond to repairs due to discontinuation of parts production even within the maintenance period.

5. Successor model

The list of discontinued models below shows alternative models or recommended successor models. Please use it as a reference for future recruitment. Alternative models or recommended successor models may not be compatible with external shapes or other I/O specifications. If you are considering replacement, please contact our sales office.

In addition, some of our companies do not have a successor model. For products that will be needed in the future, please purchase them by the final order date.

Attachment. Discontinued models

Model	Alternative/Recommended Successor	Remarks
RFS-13100F	RFS-13200F	Alternative recommendation for 20KW specification power supply
RFS-13150F	RFS-13200F
